A CATHOLIC PERSPECTIVE

For years we've heard that, 'Science has proven that God does not exist,' and yet, if we look directly at the wealth of available scientific literature whilst comparing this to the person of Jesus and his claims, the evidence for the existence of God begins to become overwhelmingly confronting.

For the disciples their faith was firmly grounded in a tangible, shared experience. The same is possible even in our generation by exploring the;

- ✓ **Historicity of Jesus**
- ✓ **Medical evidence of a Soul**
- ✓ **Scientific evidence of God from astrophysics**
- ✓ **Scientific analysis of Marian Apparitions and the Shroud of Turin**
- ✓ **Medical analysis of Eucharistic miracles**

Presented in an engaging, concise, realistic, and interactive manner. An enjoyable day filled with awe and wonder!
